

## Catalina 250 Winged Keel (Hull #639)

The sturdily built Catalina 250 gives you the room and stability of a much larger boat. Her roominess comes from its overall length of 26'11 and pop up saloon roof. She gets her stability from her lead fixed wing keel. The 250 has an enclosed private head with vanity sink. Catalina designed this boat to be fast, fun and easy to sail. It is great for daysailing and wonderful for weekend getaways. With a draft of 3.4' she can go where larger boats can't. *Wandering Star* has been well maintained and is turn key ready to go sailing. She has been sailed in fresh water only and for the last 9 years has been sailed on Lake Oahe north of Pierre, SD. Offered through [Hooper's Yachts](#), Afton, MN. Price: [Web gallery available here.](#)
